SKILLS

Programming:

HTML, CSS, Sass, Less, Tailwind, Bootstrap JavaScript, TypeScript, React, DOM, Websocket, Context API, React Hooks

Project Management:

Git, GitHub

Soft Skills:

Teamwork, Good at Problem Solving, Eager to Learn New Technologies

WORK EXPERIENCE

Frontend Developer

Uzel Bilişim A.Ş.

February 2023 – February 2024

Istanbul, Turkey

- Designed web pages using HTML and CSS.
- Used Bootstrap for dynamic and responsive design. Achieved a pixel-perfect implementation of the design.
- Developed functionality and dynamism with JavaScript and React.js.
- Implemented state and lifecycle management with React Hooks.
- Manipulated the components with DOM for function and dynamic responses.
- Integrated the Context API to create a shared context and then wrapped all relevant child components within a container component to make that context accessible to them.
- Implemented Websocket to accelerate the communication between client and server
- Integrated React Router into the application's architecture, empowering it with dynamic routing capabilities. Define URL extensions for components and made redirects to make the system more organized.
- Used Git and GitHub for version control.

Software Engineering Intern

Uzel Bilişim A.Ş.

January 2023 – February 2023

Istanbul, Turkey

- Developed web pages using HTML and CSS.
- Designed made with CSS, updated using Bootstrap
